Stephen M. Ervin, MLA, PhD, FASLA, is the Assistant Dean for Information Technology at the Harvard University Graduate School of Design, and a Lecturer in the Department of Landscape Architecture. Ervin teaches and conducts research in the areas of design, computing, media and technology, with a special interest in landscape modeling and visualization, and the integration of CAD, GIS and emerging technologies. He is the author, together with co-author Hope Hasbrouck, of *'Landscape Modeling: Digital Techniques for Landscape Visualization'* published by McGraw-Hill (ASLA Merit award winner in 2002). Ervin has taught and lectured worldwide and published articles in a number of journals including *GIS World, Landscape Architecture Magazine, Computers, Environment and Urban Systems, Computer Graphics and Applications*, and others. The founding chairman of the American Society of Landscape Architects' (ASLA) Open Committee on Computers in Landscape Architecture and a recognized Fellow of the ASLA, Ervin holds a Master's degree in Landscape Architecture from the University of Massachusetts at Amherst and a PhD in Urban Studies from the Massachusetts Institute of Technology.
